Consultant - Business process optimization/IT Software

Marei Buderath

HR USA

myfuture@p3-group.com

WHAT YOU'LL DO

- Analyze, map, and optimize business processes with a focus on IT- and software-driven automation.
- Lead and facilitate initiatives to gather requirements, analyze business processes, and identify opportunities for improvement.
- Develop detailed process documentation, including process flowcharts, procedures, and guidelines.
- Conduct impact assessments for proposed process changes and work closely with cross-functional teams to ensure seamless integration of new processes.
- Provide expert guidance on best practices for process design and improvements.

WHO YOU ARE

- You have successfully completed your Bachelor's degree in Information Technology, or a related field.
- You possess a strong aptitude for process design, process mapping, and process improvement, with a focus on IT/software solutions and automation.
- You have 3-5 years of experience in business process consulting or a related field, with a proven track record of delivering successful process improvement projects.
- You have experience working in Consulting and are familiar with the manufacturing environment.
- You are characterized by a precise, independent, and structured way of working in a fast-paced environment.
- Self-motivated and driven with an entrepreneurial spirit.
- Excellent written and verbal communication skills, with powerful presentation skills.
