Your responsibilities will span diverse areas, with the specific tasks depending on client needs and your individual strengths. They will include some of the following but not all within the same project:
- Design, execute and manage strategic projects across all phases, from analysis to concept development to implementation.
- You will be responsible for building, monitoring, analyzing, and reporting on project plans.
- Support project teams with an understanding of activities across multiple workstreams in a program.

WHO YOU ARE

- You have successfully completed your master's degree, ideally in Economics or Engineering.
- You have 2+ years of experience in consulting/project management.
- You have 2+ years of experience using data analytics tools such as Microsoft PowerBi, or similar platforms.
- You have 1-2 years of demonstrated experience with data visualization tools to build and design dashboards.
- You are characterized by a precise, independent, and structured way of working in a fast-paced environment.
- Self-motivated and driven with entrepreneurial spirit.
- Excellent written and verbal communication skills, well spoken with powerful presentation skills.
- You are detail oriented, structured and have common sense.
- You can work on your own with minimal guidance, while putting your team's interests before your own.
