

Why P3

The unique aspect of our business is the mindset of our employees: curious, adventurous, and innovative.

P3 consultants take on early responsibilities with clients in management consulting, diverse technology topics, and scalable IT solutions.

Make a project your project. Openness for new, innovative, and unconventional approaches; short decision paths; respectful cooperation; and fruitful synergies make us a diverse, unbeatable team and successful company - worldwide.

BRANCHE: AUTOMOTIVE / LOCATIONS: PARIS (FRA); TOULOUSE (FRA)

Consultant (m/f/d) - Senior developer/architect

WHAT YOU'LL DO

- You are using analytical thinking – you cultivated the habit of seeing a problem from multiple perspectives and not jumping to conclusions before looking for solid evidence
- You have the ability to work well with others – we truly believe that software development is a team sport and that the best software is made by the best functioning teams
- You work on Android Automotive OS together with our client, an international tier 1 supplier, and Google and you discuss technical solutions with the stakeholders
- You take responsibilities in a team comprising of developers, architects, DevOps engineers and testers

WHO YOU ARE

- You have 5+ years of experience in the Android Application and System Development in corporate-wide and cross-cutting scenarios
- You have successfully completed your studies in the field of engineering, computer science, communication systems, electrical engineering or a related subject.
- You have an deep understanding of the Android operating system extension concept for the automotive domain (Android Framework, Hardware Abstraction Layer and native modules)
- You have in-depth knowledge of technical interrelationships, processes and device variant management
- You have programming skills in C/C++, Java 8+ and Kotlin
- You have an understanding of CI/CD environment tools (i.e.: Git, Gitlab, etc.)
- You have worked in an agile work environment (Scrum and SAFe)
