

Why P3

The unique aspect of our business is the mindset of our employees: curious, adventurous, and innovative.

P3 consultants take on early responsibilities with clients in management consulting, diverse technology topics, and scalable IT solutions.

Make a project your project. Openness for new, innovative, and unconventional approaches; short decision paths; respectful cooperation; and fruitful synergies make us a diverse, unbeatable team and successful company - worldwide.

BRANCHE: AUTOMOTIVE / LOCATIONS: TOKYO (JPN)

Project Manager - Automotive Software

WHAT YOU'LL DO

- The P3 project manager based in the Shinjuku, Tokyo office will play an important role in building and maintaining strong, long-lasting customer relationships. The PM will be the customer point of contact and act as a consultant in the Android Automotive projects that P3 is working on in collaboration with its Japanese customers. The PM will need to answer client queries and identify new business opportunities while collaborating in existing projects. In this role, the PM will liaise with cross-functional internal teams based in Europe and will aim to enhance the overall customer experience. This position may require occasional travel in order to engage with P3 colleagues from Europe. Responsibilities

WHO YOU ARE

- Key Qualifications:
- Technical Expertise: Be able to provide technical guidance on HMI, IVI systems, and Android Automotive projects.
- Project Management: Oversee projects related to HMI, IVI systems, and Android Automotive, ensuring they meet customer expectations, quality, budget, and timeline requirements.
- Customer Engagement: Be responsible for the efficient functioning of the company's Tokyo office and bridging the communication gap between the company's European offices and the Japan customers.
- Planning and Execution: Develop and manage detailed project plans and ensure alignment with business goals and customer expectations.
- Languages: Japanese native; English advanced.
- Education: Bachelor's or Master's degree in Computer Science, Engineering, Automotive or related field.
