Consultant (m/f/d) Business Process Optimization & Operational Excellence

Marei Buderath

HR USA

myfuture@p3-group.com

WHAT YOU'LL DO

- You will take ownership of demanding assignments in operational excellence projects within the automotive industry. Your responsibilities will span diverse areas, with the specific tasks depending on client needs and your individual strengths. They will include some of the following but not all within the same project:
- Analyze, document, and optimize business processes, with a strong emphasis on IT- and software-supported automation.
- Plan and manage IT-related process improvement projects from conception through implementation.
- Gather and evaluate business requirements, define objectives, and translate them into actionable project plans and process improvements.

WHO YOU ARE

- You hold a Bachelor's or Master's degree in Business Administration, Industrial Engineering, Information Systems, Operations Management, or a related field.
- You bring 3–5 years of hands-on experience in business process consulting or IT project management, with a strong track record in the automotive industry — ideally within a consulting or manufacturing environment.
- You have deep expertise in designing, mapping, and optimizing business processes — particularly in technology-enabled transformations within the automotive industry. You have successfully led or supported IT-driven process improvement initiatives or system implementations, delivering measurable results for automotive clients.
- You work independently, precisely, and in a structured way, even under time pressure.
