Consultant/Engineer (m/f/d) - EV Charging & Smart Energy

Marei Buderath

HR USA

myfuture@p3-group.com

WHAT YOU'LL DO

- You will take ownership of demanding assignments in EV Charging projects within the automotive and energy industry. Your responsibilities will span diverse areas, with the specific tasks depending on client needs and your individual strengths. They will include some of the following but not all within the same project:
- Lead and support consulting, engineering, and testing projects across the electric mobility ecosystem, working with clients such as charge point operators, utilities, platform providers, hardware manufacturers, and automotive OEMs.
- Advise clients on the development and validation of new hardware components, ensuring alignment with market needs and regulatory standards.

WHO YOU ARE

- You hold a Bachelor's or Master's degree in an engineering or science discipline - electrical engineering preferred. Additional coursework in business, energy economics, or mobility is a plus.
- You bring 2-7 years of professional experience in the electric mobility ecosystem, ideally with charge point operators, hardware manufacturers, or platform providers.
- You have a strong understanding of the EV charging landscape in the U.S., including key technologies, software platforms, and major ecosystem players. You stay up to date with emerging trends and innovations.
- You possess deep technical knowledge of charging technologies, and are familiar with relevant protocols and standards such as OCPP, PKI, ISO 15118, DIN, and OCPI.
