

## Why P3

The unique aspect of our business is the mindset of our employees: curious, adventurous, and innovative.

P3 consultants take on early responsibilities with clients in management consulting, diverse technology topics, and scalable IT solutions.

Make a project your project. Openness for new, innovative, and unconventional approaches; short decision paths; respectful cooperation; and fruitful synergies make us a diverse, unbeatable team and successful company - worldwide.

## Telecommunication SME/Consultant (m/f/d)

### WHAT YOU'LL DO

- You support the planning and execution of Network Deployment projects for leading telecom operators and enterprises.
- You contribute to designing Network Operations models and help develop autonomous network capabilities.
- You enhance Customer Care & Operations processes by aligning technical insights with customer experience needs.
- You design and implement Network Orchestration and Engineering solutions that drive automation and performance.
- You conduct Network Benchmarking & Optimization activities to ensure high-quality, resilient network performance.
- You explore and implement 5G Private Networks and other emerging technologies.

### WHO YOU ARE

- You bring experience in telecom technologies, network engineering, and/or network operations.
- You have worked with network automation, orchestration platforms, or cloud-native architectures.
- You understand wireless and wireline technologies and are eager to dive deeper into private networks.
- You can translate technical network topics into clear recommendations for clients.
- You enjoy working in international environments and collaborating across technical and consulting teams.
- You communicate fluently in English (German is a plus).
