

Why P3

The unique aspect of our business is the mindset of our employees: curious, adventurous, and innovative.

P3 consultants take on early responsibilities with clients in management consulting, diverse technology topics, and scalable IT solutions.

Make a project your project. Openness for new, innovative, and unconventional approaches; short decision paths; respectful cooperation; and fruitful synergies make us a diverse, unbeatable team and successful company - worldwide.

Data & AI Engineer – Telco Analytics Platform

WHAT YOU'LL DO

- Design and ownership of the end-to-end data pipeline (Ingestion Validation Processing Analytics Reporting Client Access)
- Automation of data preparation, scoring, and reporting
- Implementation of AI for anomaly detection, normalization, and pattern recognition
- Development of dashboards and client-facing data portals
- Close collaboration with network engineers to embed domain intelligence
- Continuous evolution of the platform through every benchmark cycle

WHO YOU ARE

- Strong background in data engineering, analytics, or AI
- Experience with pipelines, automation, and cloud-based architectures
- Ideally exposure to telecom or network data
- Product mindset – you build systems, not one-off solutions
- Passion for scalability, automation, and technical excellence
- Advanced English communication skills, German is a plus
- Problem solver and proactive approach
