

## Why P3

The unique aspect of our business is the mindset of our employees: curious, adventurous, and innovative.

P3 consultants take on early responsibilities with clients in management consulting, diverse technology topics, and scalable IT solutions.

Make a project your project. Openness for new, innovative, and unconventional approaches; short decision paths; respectful cooperation; and fruitful synergies make us a diverse, unbeatable team and successful company - worldwide.

BRANCHE: AUTOMOTIVE / LOCATIONS: GREENVILLE (SC, USA)

## Environmental Engineer (f/m/d) Automotive Manufacturing

### WHAT YOU'LL DO

- You will take ownership of complex environmental engineering challenges within the automotive manufacturing industry. Your responsibilities will span diverse fields of environmental compliance, process optimization, and sustainability improvement. The specific tasks will depend on project objectives and your individual expertise. They may include some of the following, though not necessarily all within the same assignment:
- Perform, validate, and document airflow and ventilation calculations for industrial manufacturing facilities (paint shops, assembly, logistics, utilities).
- Design, assess, and optimize wastewater treatment and discharge systems in compliance with regulatory requirements.

### WHO YOU ARE

- You hold a Bachelor's or Master's degree in Environmental Engineering, Chemical Engineering, or related field.
- You have Professional certification or licensure (e.g., PE, or equivalent environmental engineering certification).
- Proven experience with airflow modeling, ventilation design, and emissions calculations in an industrial environment.
- Strong expertise in wastewater management, including treatment systems, discharge compliance, and monitoring.
- In-depth knowledge of e.g. South Carolina environmental law (DHEC) and/or U.S. federal environmental regulations (EPA).
- Experience in automotive OEM environments or Tier 1 supplier operation and/or with automotive or large-scale manufacturing facilities.
