

Why P3

Der einzigartige Aspekt unserer Unternehmensberatung liegt in der Denkweise unserer Mitarbeitenden: Neugierig, abenteuerlustig und innovationsfreudig.

P3 Beraterinnen und Berater übernehmen früh Verantwortung gegenüber Kunden im Bereich Managementberatung, bei vielfältigen Thematiken und skalierbaren IT-Lösungen.

Mache ein Projekt zu deinem Projekt. Offenheit für neue, innovative und unkonventionelle Ansätze, kurze Entscheidungswege, ein respektvolles Miteinander und fruchtbare Synergien machen uns zu einem diversen, unschlagbaren Team und erfolgreichen Unternehmen - weltweit.

BRANCHE: ENERGY / STANDORTE: OSNABRÜCK

Intern (m/f/d) - Fuel Cell Tear-Down & Analysis

WHAT YOU'LL DO

- You will support in the mechanical tear-down and documentation of vehicle components related to fuel cell systems
- You will contribute to the structural analysis and evaluation of fuel cell assemblies
- You will document the disassembly, findings and results in a structured and traceable format
- You will collaborate with engineers to interpret technical insights
- You will contribute to real-world technical consulting activities and daily project work
- You will actively engage with the P3 student community and participating in internal events

WHO YOU ARE

- You have an academic background in mechanical engineering, ideally with a focus on hydrogen or fuel cell technologies
- You bring technical curiosity and ideally some hands-on experience in mechanical work, prototyping, or tear-down activities
- You work reliably and in a structured and detail-oriented manner, both independently and as part of a team
- You enjoy documenting your work clearly and comprehensively
- You are fluent in German and English (Korean would be a plus)
- You are available from February or March 2026 for at least 3 months
- You can work on-site in Osnabrück
