

Why P3

Der einzigartige Aspekt unserer Unternehmensberatung liegt in der Denkweise unserer Mitarbeitenden: Neugierig, abenteuerlustig und innovationsfreudig.

P3 Beraterinnen und Berater übernehmen früh Verantwortung gegenüber Kunden im Bereich Managementberatung, bei vielfältigen Thematiken und skalierbaren IT-Lösungen.

Mache ein Projekt zu deinem Projekt. Offenheit für neue, innovative und unkonventionelle Ansätze, kurze Entscheidungswege, ein respektvolles Miteinander und fruchtbare Synergien machen uns zu einem diversen, unschlagbaren Team und erfolgreichen Unternehmen - weltweit.

Senior (m/w/d) Web Software Test Engineer – HiL in the Cloud

WHAT YOU'LL DO

- You will be responsible for testing the applicability of the web software solution therefore you need to develop a testing strategy to validate the requirements
- The traffic of the web application has to be tested, e.g. with regards to latency times and data volume. Here the best suited techniques and methods have to be researched first
- Blackbox and Whitebox testing, including E2E and integration testing must be done
- Frontend and API Endpoint Testing using preferably Selenium will enrich your testing portfolio tasks
- Stress and Load Testing of the web application are needed for our Proof of Concept (e.g. Jmeter, Cypress, Blazemeter)

WHO YOU ARE

- 5+ years of experience in the development or testing of web applications and web systems
- BSc / MSc or similar in information technology, communication systems, electrical engineering, or a related subject
- Experience in the field of Domain Driven Design, Microservices and Self-Contained Systems
- Good knowledge in the usage of software testing frameworks, i.e.: Selenium
- Knowledge in CaaS solutions with Kubernetes and Docker
- Understanding of CI/CD environment tools (i.e.: Git, Gitlab, Jenkins etc.)
- Intrinsic motivation and working independently are key
- Knowledge in the behavior of vehicle network communication protocols, i.e.: CAN, LIN, SOME/IP beneficial
