Senior Solution Architect (m/w/d) - OutSystems

WHAT YOU'LL DO

- Define and design software and IT architectures based on the OutSystems low-code platform, ensuring scalability, security, modularity, reusability, and maintainability.
- Develop architecture concepts and establish technical standards and design principles (e.g., modular architecture, SOLID principles, service orientation).
- Ensure architectural compliance throughout the development lifecycle by conducting architecture reviews and assessments.
- Provide technical guidance to development teams and support knowledge transfer regarding architectural patterns and OutSystems capabilities.

WHO YOU ARE

- At least 5 years of professional experience, including 3 years with OutSystems
- Proven track record of designing complex enterprise applications and systems with OutSystems
- Familiarity with integration architectures, security-by-design principles, and data protection regulations (e.g., GDPR)
- Experience in agile and/or hybrid project environments.
- Strong communication and stakeholder management skills.
- Language: German at native or C2 level (CEFR) is mandatory.
- Certifications such as OutSystems Tech Lead, OutSystems Architecture Specialist are highly recommended.
- Experience in CI/CD automation, DevSecOps, or cloud-native deployment can significantly enhance long-term success in public sector contexts.
