

Why P3

Der einzigartige Aspekt unserer Unternehmensberatung liegt in der Denkweise unserer Mitarbeitenden: Neugierig, abenteuerlustig und innovationsfreudig.

P3 Beraterinnen und Berater übernehmen früh Verantwortung gegenüber Kunden im Bereich Managementberatung, bei vielfältigen Thematiken und skalierbaren IT-Lösungen.

Mache ein Projekt zu deinem Projekt. Offenheit für neue, innovative und unkonventionelle Ansätze, kurze Entscheidungswege, ein respektvolles Miteinander und fruchtbare Synergien machen uns zu einem diversen, unschlagbaren Team und erfolgreichen Unternehmen - weltweit.

BRANCHE: AUTOMOTIVE / STANDORTE: DEUTSCHLANDWEIT; DÜSSELDORF; FRANKFURT

Consultant (m,w,d) AD-Validation PM - SAE L4 Automated Driving & E2E AI Systems

WHAT YOU'LL DO

- You lead and structure SAE Level 4 autonomous driving validation programs across the full development lifecycle, from concept phase to series readiness, homologation and operations.
- You define and operationalize holistic validation strategies for E2E AI based AD systems, combining scenariobased testing, datadriven validation, simulation, and realworld testing.
- You translate regulatory, safety and quality requirements (ASPICE, ISO 26262, SOTIF, homologation, ISO PAS 8800) into executable validation concepts, KPIs and release criteria.
- You analyze the validation implications of key AD system components, including camera, radar, lidar, sensor fusion, localization, prediction, planning, control, data pipelines and runtime monitoring.

WHO YOU ARE

- You hold a university degree in Engineering, Computer Science, Artificial Intelligence, or a related field.
- You demonstrate a solid understanding of AI/ML concepts for autonomous driving, including E2E vision-heavy approaches, datadriven development, and AI specific validation challenges.
- You possess a deep understanding of the validation challenges of SAE Level 4 automated driving systems, including ODD definition, scenario coverage, residual risk assessment, safety case development, and evidence-based release decisions.
- You have hands-on experience with simulations, SiL, and HiL testing, ideally integrated into automated CI/CD environments.
- You bring a strong technical understanding of AD system architectures, including modular pipelines, E2E AI models, and hybrid architectures, as well as their impact on validation strategy and safety argumentation.
