

Why P3

The unique aspect of our business is the mindset of our employees: curious, adventurous, and innovative.

P3 consultants take on early responsibilities with clients in management consulting, diverse technology topics, and scalable IT solutions.

Make a project your project. Openness for new, innovative, and unconventional approaches; short decision paths; respectful cooperation; and fruitful synergies make us a diverse, unbeatable team and successful company - worldwide.

Consultant (m/f/d) Supply Chain & Operations

- You take on challenging industrialization projects with a focus on the following: Supplier relocation, start-up protection and production optimization for our customers until handover to the affected OEM plants using APQP, VDA 6.1 and 6.3.
- You carry out cause analyses and identify deficits regarding products and manufacturing processes.
- You carry out risk analyses, Run@Rate capacity analyses and process audits for critical purchased parts volumes
- You are task force team member for critical supply situation and take over the project management in the interface between OEM and supplier.

- You burn for logistics, production 4.0, supply chain and operations, you put the pedal to the metal on your job and you love action in everyday life? So do we!
- You speak technology and have an academic background
- You think conceptually, but you can also put it into practice
- You are result-oriented, but you also always have the people in mind
- You call yourself a pragmatic doer with digital competence.
- You're up for being a brand ambassador for the P3
- You also fulfil the standard blabla: your German and English skills are very good, you can work well in a team, but also on your own, you can deal with MS-Office, you are communicative and have a high level of presentation skills, willingness to travel and flexibility
