

# CIRCULAR ECONOMY

New technologies, alternative materials and evolving regulations are enabling companies to increasingly focus on the circular economy in their sustainability efforts.

P3 supports you in identifying, measuring and monitoring your company's sustainability performance in the context of the circular economy.

## *Our Capabilities:*

- Consulting based on the P3 ReThink Model
- Cost reduction and resilience building analysis
- Life Cycle Assessment (LCA) for products as well as companies
- Cradle-to-Cradle methodology
