

SUSTAINABLE SUPPLY CHAINS

An aerial photograph of a dam structure spanning a river, surrounded by dense green forest. The image is overlaid with a green-to-blue gradient.

When it comes to a holistic approach to sustainability, companies are increasingly extending their sustainability activities to the entire value chain, including suppliers. This is because sustainable supply chains offer great leverage in meeting social and environmental challenges.

At P3, we advise you with our many years of experience in supplier management.

Our Capabilities:

- Zero Emission Supplychain (Carbon Blockchain)
- Implementation of supply chain act
- Qualification for sustainability audits
- Monitoring & Reporting
- Compliance - ensuring supplier management
